

## Museum Scavenger Hunt

*Grades 2 and up*

Can you find an exhibit that uses movement to produce **light**?

Who were Michigan's **first farmers** and what did they grow?

Visit the 'chemistry lab.' Mix together **Hydrogen** and **Sulfur**. What did you create?

Find your age on the **Periodic Table of Elements** and write down the symbol and the chemical name of that element.

Find a piece of **artwork** and explain why you like that piece of art.

Take a moment and paint a self-portrait at the **Paint Wall**.

Give the **Weather Report**. What is the forecast for your town?

Can you make the **Catenary arch** stand on its own? What is a keystone?
